3

BERMEO

This seafaring village, capital of Biscay in the XIII century, grew closely linked to fishing. Its old town still preserves the flavor of its medieval past. Torre Ercilla (XVI century), which houses the Arrantzaleen Museoa, or Fisherman's Museum, and San Juan de Gaztelugatxe are essential references.

www.bermeo.eus

BUSTURIA

4

Located between the salt marsh and the Cantabrian Holm-oak groves, in the heart of the Urdaibai Biosphere Reserve, to its natural wealth we must add valuable assets such as the impressive Church of Nuestra Señora de la Asunción (XIV century) in Axpe, the Royal path and Txirapozu Palace. Ekoetxea Urdaibai (Torre Madariaga) houses the Euskadi Biodiversity Centre.

www.busturia.org

5

EA

The estuary, which separates its picturesque town centre, joined by small bridges, leads to the port and an almost familiar beach. It is historically linked to water wealth, the Urtubiaga foundry and the rocky intertidal beach of Ogella.

www.eakoudala.net

6

ELANTXOBE

Perched high on the slopes of Ogoño, overlooking the port, this small fishing village has evolved into a marina, without losing a bit of its authenticity. Some highlights are the Church of San Nicolás de Bari (XIX century) and neoclassical buildings such as the Consistorio or Town Hall.

www.elantxobe.eu

EREÑO

7

Located at the foot of San Miguel de Ereñozar; a spectacular natural watchtower, where a medieval castle once stood. The houses in the town centre are all built with the local red stone, exploited as early as by Roman stonemasons. Attention is drawn to its monumental Church of San Miguel (XV century) which truly stands out.

ww.ereno.org

8

ERRIGOITI

Rural and agricultural, its rich religious heritage reveals a mystical past and legendary history. To highlight: the Parochial Church of Santa Maria de Idibalzaga and the baroque shrine of San Antonio.

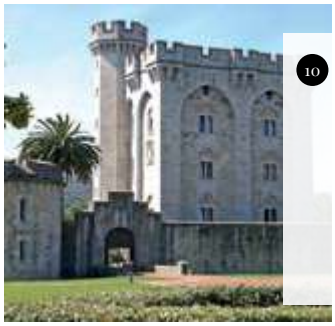
www.errigoiti.net

FORUA

9

In its Roman settlement and beneath the ground of the monumental Church of San Martín de Tours, is preserved a great part of the historical legacy of the region. We should also emphasize the natural charm of this rural landscape and its paths within the salt marsh.

www.forua.net



10

GAUTEGIZ ARTEAGA

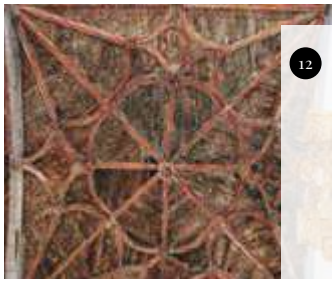
Its history of mills and foundries becomes glamorous when Napoleon III builds a castle for his wife Eugenia de Montijo, near the salt marsh. Urdaibai Bird Center is close by; it's a living museum for the sighting, diffusion and investigation of migratory birds.

www.gautegizarteaga.com

GERNIKA-LUMO

The roots of the rights and freedoms of the Basque people surface in the emblematic Tree of Gernika, under which the Lord ships were sworn and where today the "Lehendakari", the president of the Basque government, takes his oath of office. Other highlights are the Peace Museum, Euskal Herria Museoa, the Park of the Peoples of Europe, and the traditional farmers market on Mondays.

www.gernika-lumo.net



IBARRANGELU

It possesses a wealth of treasures, among which stand out: a magnificent panoramic view of Urdaibai from San Pedro Atxarre, the exclusive XVI century polychrome wood vault of the church of San Andrés and the renowned beaches of Laida and Laga.

www.ibarrangelu.eus

KORTEZUBI

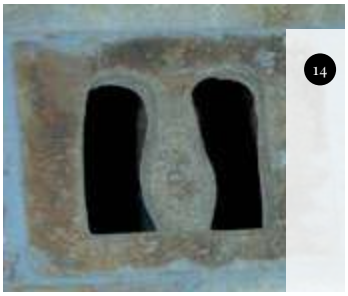
www.kortezubi.eus



MENDATA

It is immersed in a mountainous landscape, on the Camino de Santiago pilgrimage route. The Tower of Montalbán (XVI century), the gothic-Renaissance Church of San Miguel Arcángel, and the hermitage of San Juan and San Lorenzo are some of the highlights.

www.mendata.eus

MORGA

On the Jacobean Route, seated on a mountainous massiff, it offers a pastoral interior landscape that houses historic areas such as Meakaur, with its Renaissance church of San Martín and the shrine. In Andra Mari, Palacio Zorroza (XVIII century) stands out.

www.morga.eus

16

MUNDAKA

On the mouth of the estuary, from a vantage point, presided over by the Church of Santa Maria, we discover a charming port, the beauty of the hermitage of Santa Catalina and the comings-and-goings of the surfers that, just a few meters away, defy the waves. This coastal village preserves its seafaring spirit, its rural culture and pampers its traditions.

www.mundaka.org

17

MURUETA

The chimney of the old Tejera, a vestige of an industrial past, stands on the edge of the salt marsh, where we can also highlight the old wharf area, now modernized, and Maiukitza mill. It's monumental Church of Santa Maria (XIX century) crowns the town center.

www.murueta.es

18

MUXIKA

Traditionally agricultural, it is the most extensive town of the region (50km2). Its recondite villages, with well-preserved farmhouses, enjoy a rich heritage, such as the Tower House of Muxika, the hermitage of San Roman and the gothic hermitage of San Pedro and San Pablo.

6 Routes
to discover Urdaibai

Local history, nature and culture are the driving force behind these routes, to learn the essentials of Busturialdea-Urdaibai.

1 THE ROYAL PATH

It runs along the Gernika-Bermeo coast, retracing the footsteps of the ancient Lordships of Biscay, who swore in the laws of the people of Biscay under the Tree of Gernika.

Start off in the villa of **Gernika-Lumo,** where you can see the Tree of Gernika, a symbol of the rights and freedoms of the Basque people; the Gernika Jai Alai fronton —cathedral of 'cesta punta'— and the Gothic-Renaissance style Church of Santa Maria.

In **Forua,** the Roman settlement and the Church of San Martín de Tours (XVII century) are essential to learn about the history of the region.

Further into the salt marsh in **Murueta,** the old Tejera offers us an archaeological remnant. Once in **Busturia,** we will actually "set foot" on the authentic Royal path, with its ancient txakoli vineyards. Torre Madariaga will draw us closer to biodiversity.

In **Sukarrieta,** learn the history of the Roman anchorage of Portuondo; the botanical garden of the Island of Txatxarramendi with its gorgeous views; and take a break on San Antonio Beach.

Mundaka offers spectacular views of the Urdaibai estuary from the watchtower and of the open sea from the charming hermitage of Santa Catalina.

The route ends in **Bermeo.** Arrantzaleen Museoa, or Fisherman's Museum, the gothic cloister of the Convent of San Francisco (1357), the Arc of San Juan or the Church of Sta. Eufemia (XVI century), all tell us its history. A visit to San Juan de Gaztelugatxe is a must.

2 THE HOLM-OAK FOREST REGION

The beauty of the Holm-oak forest reaches its fullness thanks to all the small villages on the right bank of Urdaibai estuary.

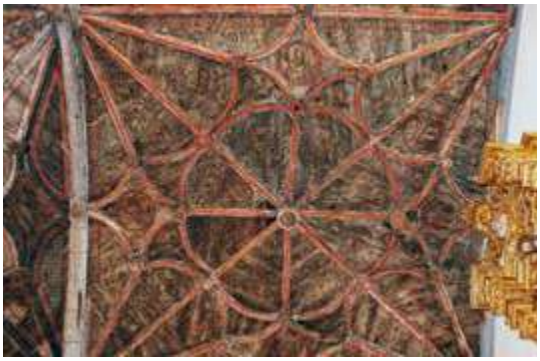
In **Kortezubi,** the cave of Santimamiñe submerge you in pre-history; in Oma, the silence of the valley whispers and enthralls the Painted Forest. The endangered wild fauna takes refuge in Basondo.

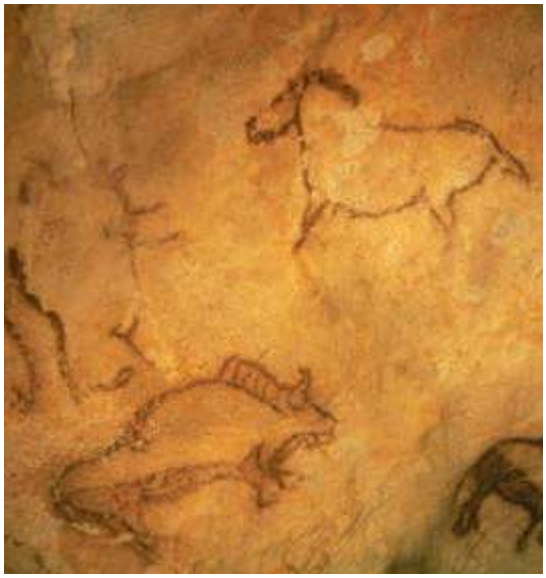
In neighboring **Gautegiz Arteaga,** stop at the hermitage of San Lorenzo (XVI century) and the castle, which emerges from the landscape in which migratory birds replenish their strength, observed from the Urdaibai Bird Center.

Ibarrangelu is a true example of diversity: the ofitas and dunes of the beaches of Laida and Laga contrast with the Holm-oak groves that surround them. Across, the viewpoint of San Pedro Atxarre offers an impressive panoramic view of the Urdaibai estuary and, once in the town center, the guided visit to the church of San Andrés with its spectacular vault will surprise you.

Elantxobe with its vertical disposition, that fuses landscape and charm, houses neoclassic-style buildings (XIX century) and meets the sea in its small port.

In **Ea** its picturesque town centre, separated by the estuary and market by successive bridges, is the counterpoint of its eminently rural neighborhoods of Natxitua and Bedarona; and its calm rocky coves like that of Ogella, of high environmental value.





3 THE GOLAKO RIVER ROUTE

Runs along the countryside towns, rural-spirited, rising on both banks of the Golako River.

It begins in **Ajangiz**, a natural watchtower overlooking the fertile valley of Gernika-Lumo. The Church of the Ascension (XIX century), surprises for its size.

In **Mendata**, the Montalbán Tower House (XVI century), its pentagonal shape is unique in the Basque Country and the church of San Miguel (XVI century). In the district of Marmiz, the vestiges of the forge and Olazarra mill suggest a strong bond between mankind and nature.

Since the Middle Ages, **Arratzu** has been a coastal pilgrimage route on the way to Santiago, in ancient time crossing over the gorgeous Artzubi Romanesque bridge. The parish of Santo Tomás houses one of the most important baroque choirs in Biscay. In the district of Loiola, Arrolagune is the Interpretation Center of the Oppidum of Arrola, an archaeological site dating back to the II Iron Age.

4 MEDIEVAL ROUTE

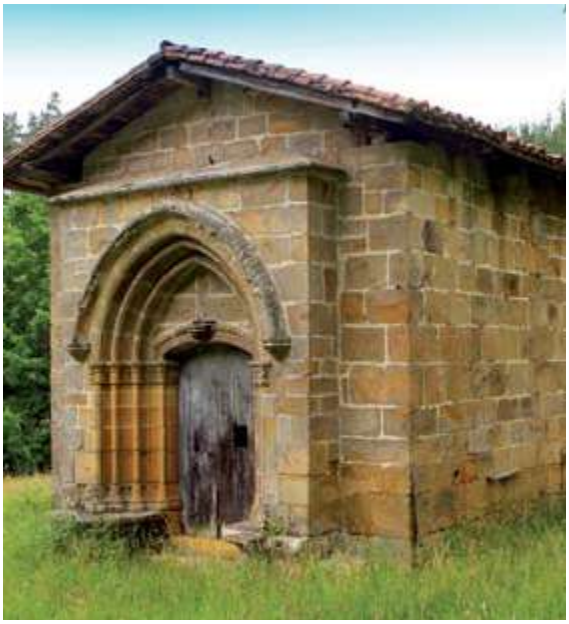
Traces history without leaving the extensive town of Muxika, of dispersed neighborhoods and sprinkled with a rich historical and cultural heritage.

Located in the neighborhood of San Roman is the emblematic **Muxika** Tower House (XVI century), converted into a rural palace when War of the Bands ended. The Hermitage of San Roman is a magnificent example of the pastoral religious architecture.

Heading to the neighborhood of Ibarruri, we see Etxezarreta Palace, Olabarri mill and the gothic hermitage of San Pedro and San Pablo (XV-XVI century). Behind it, is the Church of Santa Maria (1930), of medieval inspiration, and a beautiful baroque Via Crucis. Further

ahead, are the baroque palace of Ormaza and the Ibarruri Shoeing Frame. In the neighborhood of Unda, admire the architectonic beauty of its farmhouses from the late Middle Ages.

In Magunas, eminently rural, emphasis is on the baroque-style hermitage of San Lorenzo, with its wooden choir. The Balcony of Biscay (Mendata) is nearby, a fabulous inland viewpoint of the Urdaibai Biosphere Reserve.



5 FARMHOUSES AND STELAE

A journey through the customs and traditions of towns and villages that are home to genuine natural and cultural jewels.

Start off from **Muxika,** in the Church of San Vicente, of great value for its Romanesque corbels on its south façade.

On the way to **Morga,** at the summit of Gerekiz, of interest are the hermitage of San Esteban, of pre-Romanesque origin and its two Roman era (III and IV centuries) headstones. When you reach Andra Mari, Zorroza Palace (XVIII century) with its double-arc portico, is precursor and example of the style of many local farmhouses. In Meakaur, contemplating the Renaissance Church of San Martín, with its beautiful Mannerist door in the shape of a triumphal arc (XVI century) is truly a gift. Across is the hermitage of Santo Cristo Crucificado, from 1766, although founded in 1515.

The route ends in **Errigoiti.** In the district of Metxikas and Zallobante, next to the appealing recreational area ideal for families is the neoclassic church of San Lorenzo. In Elexalde, the temple of Sta. Maria de Idibaltzaga truly stands out. Across is the great San Antonio shrine, one of the best decorative ironworks in the whole region. A hike up Bizkaigane Mountain has its landscape rewards.

6 FROM PREHISTORIC VALLEYS TO THE HILLTOPS OF URDAIBAI

History and nature go hand in hand in this profound and evocative route.

On the foothills of Santimamiñe, in **Kortezubi,** the valley of Oma unfolds; an idyllic lush green and quiet setting in which you will find extraordinary farmhouses and, resting from ancient toils, the mills of Bolunzulo and Olakoerrota.

In **Nabarniz,** the highest village of Urdaibai emerges the tower of the Church of Sta. Maria de Gorritiz-Gorostizaga, of gothic origin. From here, the Illuntzar mountain top, which offers a spectacular panoramic view of Urdaibai and Lea-Artibai is easily accessed.

In the district of Ikazurieta, the farmhouse Ikazuriaga is preserved, it is over 500 years old and a colossal Oakwood structure (XVII century). In Lekerika, we find the Aldekoa farmhouse (XVIII century), of dissuaded facade to include one or two floors of balconies, a peculiarity that occurs only in farmhouses of this valley; it has an impressive Coat of Arms and a porch access with a column with an ionic capital.

Climbing to mount Arrola allows you to visit a surprising fortified town from the second Iron Age, currently undergoing archaeological investigation.

In **Ereño,** notorious for the reddish stone of its quarries, exploited by the Romans as early as the first century AD, some of the highlights are a stilt granary and the Church of San Miguel, constructed with the stone from its quarries, as well as several of the houses in the town centre.

An essential visit is the hermitage of San Miguel de Ereñozar, with exceptional views of the mountains of the Duranguesado and Gorbea; the estuary of Mundaka and to the sea. Archeological excavations on the hilltop have discovered the existence of several necropolises, and even a medieval castle.
